FOR BUILDING CONTROL PURPOSES

These drawings and specifications are for the purpose of obtaining building regulations approval only. Prior to commencement of the work, the contractor shall provide all necessary permits, conditions, fees, and other information as required by the Building Regulations.

Building Regulations General Notes:

- 1) See survey sheet or information obtained from Ordnance Survey Data.
- 2) The product shown and/or details shown in the drawings or section of the structure shall be used or taken in isolation or working in conjunction with the other parts of the structure, or with other parts of the building, as shown in the drawings or section of the structure, or with other parts of the building, as shown in the drawings or section of the structure.
- 3) The drawings shall be subject to New World Architectural's conditions of sale. All dimensions should be checked on site and any discrepancies reported immediately.
- 4) In accordance with the Construction (Design and Management) (CDM) Regulations 2015, the contractor shall be responsible for ensuring that the drawings and specifications are used in conjunction with the relevant parts of the building, as shown in the drawings or section of the structure, or with other parts of the building, as shown in the drawings or section of the structure.
- 5) The contractor and owner shall be aware of the site status and any conditions of sale and any other conditions which may be required for the project. All drawings and specifications shall be subject to New World Architectural's conditions of sale. In addition, the drawings and specifications shall be subject to the relevant parts of the building, as shown in the drawings or section of the structure, or with other parts of the building, as shown in the drawings or section of the structure.
